To Whom It May Concern,

Tremont Elementary invited Matt to perform his 'just for fun' juggling show at our school and he really connected with the kids. His impressive tricks captivated the students and teachers alike. Following the show, Matt involved the students even further in his hands-on workshops, which the kids thoroughly enjoyed. His equipment was well organized and age appropriate. The children were able to practice juggling skills using beanbags, spinning plates, and more. After the workshops, many of the children stopped by my office and thanked me for bringing Matt to our school.

Matt was a consummate professional and a pleasure to work with. I highly recommend him as being both educational and entertaining.

Sincerely,

Dr. Maria Wilkes
Principal
