

Short Bio for Press Releases

Juggler Matt Jergens has been making audiences laugh for the past decade. Whether he's performing on five-star cruise lines or at festivals around the country, Matt has enjoyed tremendous success with his variety show.

His show involves electrifying routines that showcase the talents of one the top jugglers around. He fills the stage with razor sharp knives, 16-pound bowling balls and a multitude of other unique props. He doesn't forget the most important part of the show either, the audience. There are many opportunities for volunteers to come up and help with a trick or stunt and, as always, they come out looking like heroes.

During a recent two-year tour, Matt performed for such places as Foxwoods Casino in Connecticut, Universal Studios in Florida, and on the high seas with Holland America Cruise Lines.

So, see for yourself why Holland America boasts, "You won't believe your eyes... this is one of the top variety acts out there!"
